*"I have been getting great feedback from players who I have been working with on the **DBS**. The most common comment is "I could feel that I was doing something wrong but I couldn't see it and I didn't know how to change it."*

--*Michael Frauenfelder, MSPT*

*Supervisor, OT and PT, California Pacific Medical Center, San Francisco, CA*

*"The **DBS** makes me a better teacher and my clients better learners. The **DBS** helps translate abstract concepts such as balance and weight shifting into kinesthetic awareness. The **DBS** dramatically reduces the time it takes a golfer to say "Oh, that's what I should be doing!"*

The advanced teaching capabilities of the DBS will  
INCREASE your income !

For example, with only:

- 3 additional instructional sessions/week -- @ \$75/session
- or
- 3 clients practicing on the DBS/day, 5 days/wk -- @ \$15/session

**Extra Income: \$225 / wk = \$11,700 / yr**

*The DBS and training available from \$6,995*
