

Dynamic Balance System - DBS™

YOUR Golf Program's PROFIT CENTER

Even Minimal Use pays for *your* DBS

-- Jack Bohman, PGA Professional

"The real time feedback of the Dynamic Balance System gets to the core of a golf swing in a manner that is simple, non-intimidating and fun for both student and teacher to grasp. As a teacher, it is uncanny how golfers measurably improved their swing planes once they begin to move in balance.

As a PGA Professional in New England, the Dynamic Balance System allowed me to extend my teaching season from seasonal to year round. My investment in the DBS paid for itself in the first three months and I am still reaping the rewards from the positive effect it had on my students."
